

9/17/26 Notes from Dan – Lensy

SEE 1 NOTE PER PAGE, BELOW

See DO 111 ("IES Lens")

DO 999. Lensy access: updated policy and non-subscriber restrictions.

Goal: Make 'Lensy' more accessible but encourage upsells to full subscription

Example: See below

Internal Definitions:

- **"Lensy"** is the tool name, always. Only 1 logo (**no more LensyLite**).
 - o *NOTE: We are awaiting trademark resolution. We may need to change the name, but let's proceed with "Lensy" until we have confirmation.*
- **"Subscriber"** is a user with full access. It is defined as a single-user license to the full Lighting Library plus full Lensy, and may be purchased by an individual or assigned to an individual by a sustaining organization.
 - o No daily search cap
- **"Non-Subscriber"** is all other users with a free IES account (including IES Members without a subscription)
 - o 20x daily search cap (then AI is disabled for 24hr)

Lensy Subscriber search experience (copy only; formatting appreciated!):

- For a user's first 5 logins (or 5 days, if easier), can you display a floating window welcoming them?
 - o **[logo] Welcome to Lensy, your AI-enabled guide to the entire IES Lighting Library!** Quickly find answers, browse illuminance table values adjacent to context from IES standards, retrieve references, compare versions, and share bookmarks.

[DO 106 Continued]

See DO 111 ("IES Lens")

Lensy Non-Subscriber search experience (copy only; formatting appreciated!):

- Every login (until they become a subscriber), display a floating window welcoming them
 - o **[logo] Welcome to Lensy, your AI-enabled guide to the entire IES Lighting Library!** You may search for standards, references and definitions. Subscribe today to unlock unlimited results, access the entire library of IES Standards browse illuminance table values adjacent to context from IES standards, compare versions, and share bookmarks.

Subscribe to the Lighting Library to unlock full access

Tutorials

Those buttons would go to tutorials and video content from the tutorial pages...in process...

- If Non-Subscriber exceeds the 20x daily search cap, introduce a banner at the top of Lensy interface for all future searches until 24hr reset:

Thank you for trying Lensy! You have exceeded your trial AI search limit for the day. AI assistance has been disabled.

Subscribe for full access.

- When Non-subscriber has used 15x daily search cap, display a notice:

Thank you for trying Lensy! You have 5 AI-assisted searches remaining for the day.

Subscribe to the Lighting Library to receive full access.

See DO 111 ("IES Lens")

DO 107.

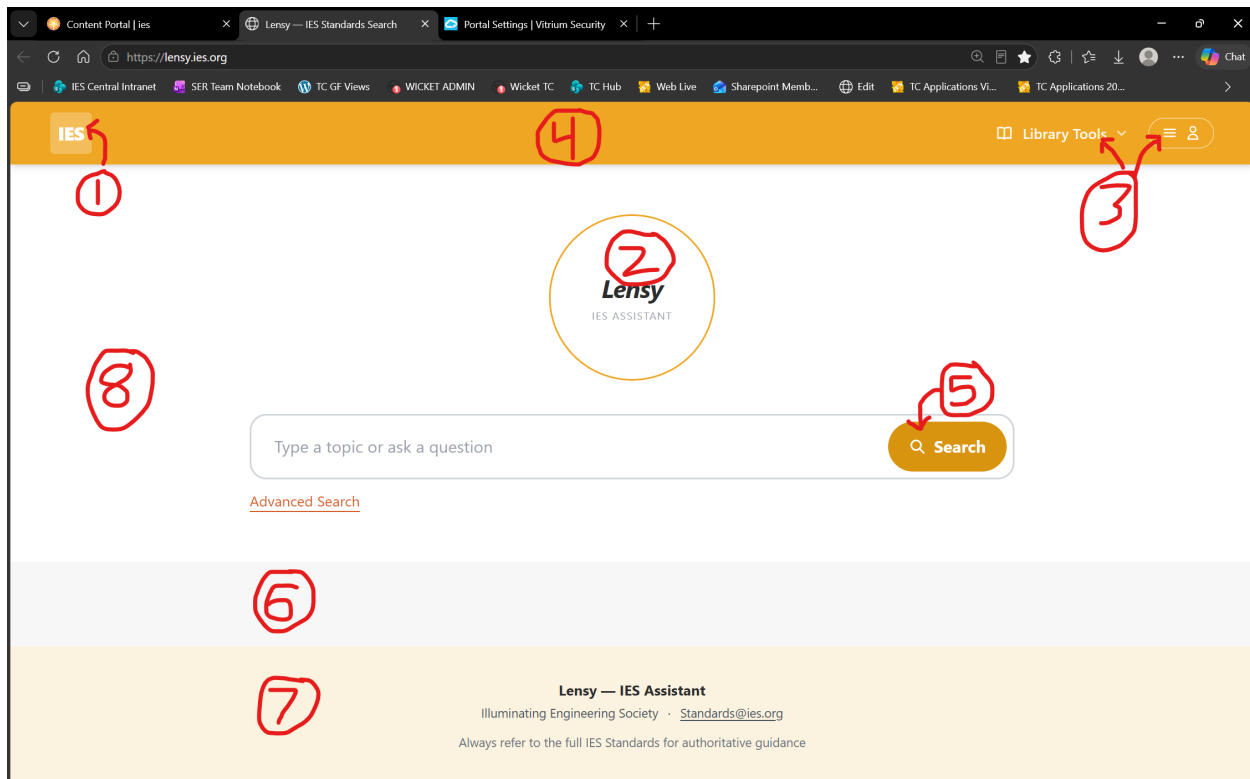

Lensy Branding/Logos: we have the request in from marketing. See below.

Goal:

Harmonize with styling of IES website (and, simultaneously, with Vitrium as much as possible)

Example:

See below

- 1) New logo: [IES Lighting Library Logo 2026 - Horizontal.png](#)
- 2) New logo: [IES Lens Logo - pos.png](#)
- 3) Outline + font color (inactive state): #84898f
 - a. Text color for body of menu (active state): #30363D
- 4) Top banner background color: #f6f6f6
- 5) Search button color (and *all* orange buttons/objects on site): FFAA00
 - a. Include: 'Open in Library', 'New Bookmark Collection,' selected filters above search results in bookmarks etc
- 6) Background color: #f6f6f6
- 7) Background color (footer): #FBF3DF
- 8) Background color: white

DO 108.

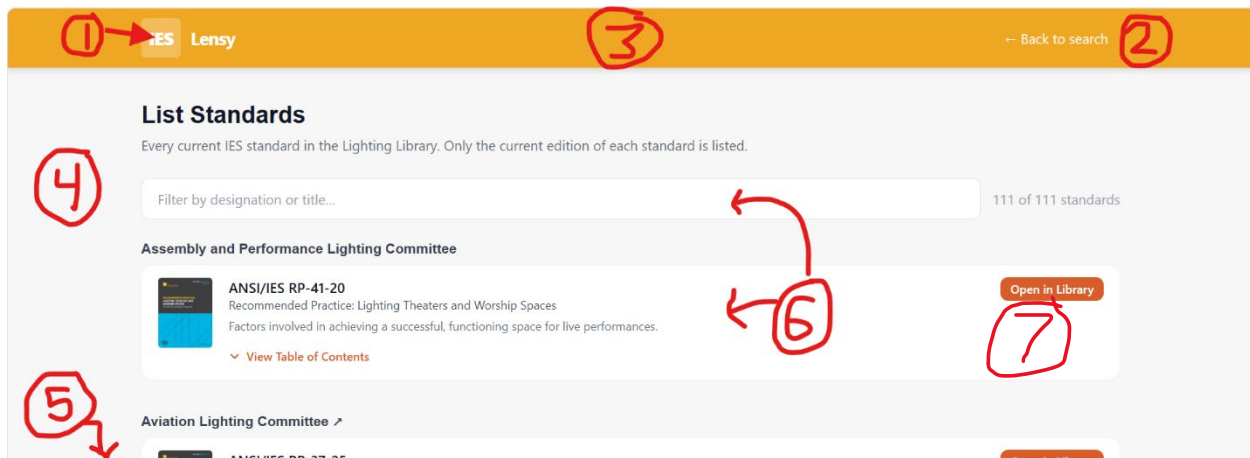

“List Standards” (/contents) page - Branding/Logos: See below.

Goal:

Harmonize with styling of IES website (and, simultaneously, with Vitrium as much as possible)

Example:

See below

- 1) New logo: [IES Lens Logo - pos.png](#) (Links to Lensy)
- 2) Recreate menu from top right of Lensy
 - a. Library Tools: replace with “Search with IES Lens”
 - b. **Note: the “List Standards” page will need to be available on the main site as well, so – should it move to [ies.org](#) or do you want to embed it on [ies.org](#) pages as needed?**
 - c. Outline + font color (inactive state): #84898f
 - d. Text color for body of menu (active state): #30363D
- 3) Top banner background color: #f6f6f6
- 4) Background color: #FBF3DF
- 5) Footer Background color: #f6f6f6
- 6) Background color: white
- 7) Search button color (and *all* orange buttons/objects on site): FFAA00

DO 109.

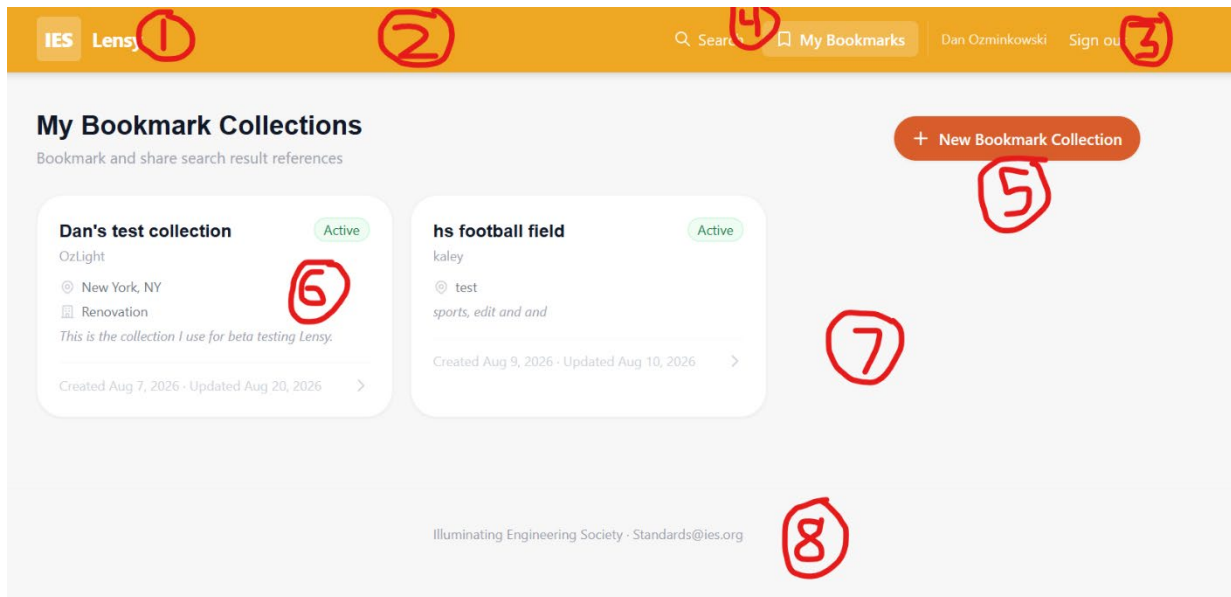

“My Bookmarks” (/projects) page - Branding/Logos: See below.

Goal:

Harmonize with styling of IES website (and, simultaneously, with Vitrium as much as possible)

Example:

See below

1) New logo: [IES Lens Logo - pos.png](#) (Links to Lensy)

2) Top banner background color: #f6f6f6 

3) Recreate profile menu from top right of Lensy

a. (don't need 'My Bookmarks')

b. Outline + font color (inactive state): #84898f 

c. Text color for body of menu (active state): #30363D 

4) Recreate menu from top right of Lensy

a. Add "Search with IES Lens"

b. Outline + font color (inactive state): #84898f 

c. Text color for body of menu (active state): #30363D 

5) Search button color (and all orange buttons/objects on site): FFAA00 

6) Background color: white

7) Background color: #FBF3DF 

8) Footer Background color: #f6f6f6 

See DO 111 ("IES Lens")

Can you change the subdomain from /projects to **/bookmarks?**

DO 110.

Establish a simple method for IES staff to assign 90-day complimentary access to any single document, for a single user OR an uploaded csv of users (or similar).

Goal:

Streamline process for staff to assign an entire classroom or committee (or single volunteer) complimentary 90-day access to one or more documents *without* providing access to the 'full' Lensy toolset.

Potential solution (modify/improve as needed):

See DO 111 ("IES Lens")

1. Establish new Vitrium group ("90-day document comp")
2. Add a tab to the Lensy admin page
 - a. Select individual user from Wicket
 - i. Assign 90-day privileges to 1 or more documents (current or deprecated) from a multi-select auto-filter list, or similar
 - ii. Assign 'start' date; auto-calculate end date (but allow override)
 - b. Upload a csv of email addresses (or, if not feasible, allow multi-select for Wicket users)
 - i. Same as above, for assigning document privileges
3. Trigger auto-email
 - a. Notify users that they have been provided ##-days complimentary access to (list full designations and titles of documents); provide link to Vitrium, and hyperlink the individual standards if possible.

NOTE: in both cases, there will be occasions that we need to provide permissions to multiple individuals without an IES account. Can/should IES account creation be automated?

DO 111. IMPORTANT UPDATE regarding naming

“Lensy” will *likely* need to release as **“IES Lens”** for trademark purposes. We have not yet completed the process of securing ‘Lensy’ with legal. We may casually refer to the search as “Lensy,” **but for now we need to replace all instances of “Lensy” with “IES Lens.”**

NOW: use “IES Lens” only.

TBD: *if secured*, we may roll out “Lensy” later.

Note:

1. Domain: we think it will be ok to keep lensy.ies.org regardless but are awaiting word. Keep as-is for now.
2. Footers: all should change “Lensy” to “IES Lens”
3. All profile menus: instead of indicating “Lensy” as the product subscription, indicate “Lighting Library” as the product subscription
 - a. We will always refer to subscriptions as “Lighting Library”, as the umbrella product
4. Please do a comprehensive search/replace for any other instances of “Lensy”

FYI: new branding is:

DO 112.

“List Standards” page: add “published” date for each, and provide additional ‘sort’ options with a variety of display formats based on the sort method.

Goal:

Each user visits that page for a different reason. Provide easy access to the sort/format that works best for each user type.

Default view:

Retain current version (sorted by committee).

See DO 111 (“IES Lens”)

ADD Sort function (similar styling to the Lensy page):

1. **“Committee”** (default)
 - a. ADD publication date. Maybe right side beneath ‘open in library’?
2. **“Publication Date”**
 - a. Sort Newest > Oldest
 - b. Add a banded card at top **“Most Recent”** containing all standards published within the past 6 months; all other standards listed below
3. **“Designation”** sort by the designation code (e.g. ANSI/IES RP-01-24)
 - a. Note: sort the “##-##” portion (e.g. 01-24 above) by *number* not text
 - i. Correct sort: RP-1-24, RP-2-20, RP-3-26
 - ii. Incorrect sort: RP-1-24, RP-11-26...RP-27-26
4. **“Title”** sort by name
 - a. E.g. “Lighting Theaters and Worship Spaces”
5. *If possible...* **“My Most Viewed”** for subscribers
 - a. Limit to documents the user has opened in Vitrium for any reason
 - b. Sort by ‘access’ quantity
 - c. Do not display unopened documents

ADD “Display as Table” (similar placement and style as “Advanced Search” in Lensy, but make it a toggle switch – off by default)

- Displays *all standards in the lighting library including deprecated*
- Columns (do not display description and table of contents in this view):
 - o 1. Publication date
 - o 2. Full designation and title (hyperlinked to Vitrium resource)
 - o 3. Committee name (hyperlinked to public committee page)
- *Make it compact.* These users will want a dense, data-centric view.
- Add an orange button to **“Download CSV”** (to include url for Vitrium resource)
- All ‘sort’ options listed above apply to this view as well

MS Teams Responses

Alex Cuevas: Morning!  Image 1. Caps & device limits: 1-session cap is live. ... |  Lensy | Microsoft Teams

- **1. Caps & device limits:**
 - o “The monthly Vitrium reset cron is coded and waiting on Vitrium API access from Tom.”
 - Did you receive what you needed from Tom? Do you need assistance there?
- **2. Custom error pages:**
 - o Live in Vitrium, covering all 24 error codes. I just need the reset-request inbox and the document → store URL list for direct purchase links.
 - Inbox: Zoe and Dan both need the reset-request for redundancy. Can you assign it to both of us? If not, standards@ies.org could be used but we don’t check that as frequently so should discuss if it is needed.

Alex Cuevas: DO070 — Sub/superscripts (Rf, Rf,hj, Duv, cd/m²...) now render properly... |  Lensy | Microsoft Teams

- **DO101 — RP-27-20+E1 marked Deprecated; RP-27.1-22 stays Current. Need the RP-27-26 PDF to index it.**
 - o [RP-27-26.pdf](#)

Alex Cuevas:  Image  Image  Image  Image  Image  Image  Image  Image  Image  Image  Image Hi Da... |  Lensy | Microsoft Teams

- **staff dashboard live at lensy.ies.org/admin (users, ingest, analytics, reset queue).**
 - o [not high-priority] can you work on reports that would rank the total ‘read’ quantities on each page, for each document? These might live here, but will likely ultimately live on the lightroom page sfx is developing.
 - Ideal: allow fine-tuning by page, but default view to display frequency of access anywhere within each *chapter* of each standard.
 - Goal: allow staff (and committees, if shared by staff) to see which chapters are the most frequented in their standards)
- **API privileges for support@ies.org — programmatic login gets 403 on everything. Fixing this turns on the monthly device-limit auto-clear (already built), per-user resets, and Cube reports. Biggest unblock by far.**
 - o I wasn’t clear whether you are stating you need privileges from me for support@ies.org for something, or if you resolved the access yourself?
- **Dan Ozminkowski: Alex is the admin page ready to use for replacing files? Would yo... |  Lensy | Microsoft Teams**
- Please clarify: is the admin tool ready for use? Do you want us to still notify you of changes? And should we still upload the new changes to Vitrium? Just need to clarify the workflow for adding new files or swapping old files.
